## Summary

I am an IT specialist. I began my studies in high school with a specialization in "Computers and Computer Networks." I then completed an internship as an IT Technician at Ericsson AS.

The next significant step was pursuing higher education at the Estonian Entrepreneurship University of Applied Sciences (Eesti Ettevõtluskõrgkool Mainor), specializing in "Web Technology and Web Design."

I have also gained valuable work experience as a WordPress Developer, applying my knowledge in both web design and web technology.

---
